

CLOSET SHELVING · REACH-IN LAYOUT

Split Reach-In With Shelf Stack

Double-hang and single-hang bays with a five-shelf stack dropped in between for folded storage.

Split reach-in with a five-shelf stack between the hang bays. Heights from finished floor.

Build to these heights

Double-hang bay	rod & shelf at 80" and 40"
Shelf stack (center)	five shelves at 20 / 35 / 50 / 65 / 80" , 16" deep
Single-hang bay	rod & shelf at 65" , shelf only at 80"
Bulkheads	80" between sections

FIELD NOTE

The center stack turns a plain reach-in into real storage - shoes and folded goods between the two hang bays.
