

CLOSET SHELIVING · STANDARD HEIGHTS

Reach-In Linen Closet Heights

Shelf heights for a linen closet behind a 6'8" door - the top shelf drops to clear the lower head.

Heights from floor

Shelves	20 / 33 / 46 / 59 / 72"
Spacing	13" between shelves (a standard stack is 15")
Top shelf	72" - lowered from 80"
Bottom shelf	20"
Shelf depth	16", deeper if the closet allows; top shelf 12"
Cleats	1×2 for linens and stacks

WHY 6'8" DOORS CHANGE IT

A 6'8" (80") door head sits too low to load an 80" top shelf, so a linen stack drops the top shelf to 72" and tightens the gaps to 13". Five shelves still fit, just closer together.
